Education

Sukkur IBA University

BS. in Computer Science

2023 - 2027 (Expected)

Skills

- Data analysis and visualization
- Machine learning proficiency
- Front-end frameworks
- API integration
- Database design – MySQL, MongoDB
- Problem-solving
- Corporate communications
- Teamwork and collaboration

Tools

- Git & Github
- Jupyter Notebook
- Power BI

Computer Science student with proficiency in machine learning, automation, data analytics, and full-stack development, experienced in developing AI-driven applications and scalable software solutions for real-world challenges.

Work Experience & Projects

Programming Mentor, Sindh Education Organization

June 2024 - August 2024

- Mentored students in programming and problem-solving.
- Guided learners in debugging and coding practices.

Team Lead, Sukkur IBA University

January 2024 - May 2024

- Led the Object-Oriented Programming (OOP) course team.
- Assisted students with OOP concepts, debugging, and coding practices.

Automated Data Analytics ML Pipeline | Python, Scikit-learn

- Built an automated ML pipeline for data analysis, preprocessing, model training, evaluation and insights to assist decision-making

Smart Career Recommendation Chatbot | TF-IDF, Python

- Developed an AI chatbot that recommends careers match resumes with job descriptions, achieving 0.80 accuracy.

EduLearn – Online Learning Platform | HTML, CSS, JavaScript

- Built a responsive learning platform enabling course discovery, enrollment, and progress tracking.

Social Media Application | Java, OOP, DSA

- Developed a networking platform using DSA concepts with user profiles, friend connections, and content sharing features.

Achievements & Awards

- **Coding Marathon Winner** – Secured 3rd place.
- **Prime Minister Laptop Scheme Awardee** – Awarded for academic excellence (CGPA: 3.8).
- **Generative AI Workshop Participant** – Explored LLMs and generative AI applications.

Certifications

- **Machine Learning Specialization**, Kaggle — 2026
- **Introduction to MongoDB**, MongoDB University — 2026
- **Google AI Essentials**, Google/Coursera — 2025
- **Introduction to Cloud Computing**, IBM — 2024

Languages

- Python, Java, JavaScript
