

PROFESSIONAL SUMMARY

Computer Science student focused on machine learning and NLP, with hands-on experience building end-to-end ML pipelines and AI-driven applications, along with a solid foundation in full-stack web development to bring those tools to real users.

SKILLS

- **Languages & Libraries:** Java, Python, NumPy, Pandas, Scikit-learn, Matplotlib
- **Machine Learning:** Data preprocessing, Model training & evaluation, NLP, ML pipelines, Data analysis & visualization
- **Other:** Git/GitHub, MySQL, MongoDB, API integration, Jupyter Notebook

PROJECTS

Automated Data Analytics ML Pipeline

May 2026 – June 2026

- Built an end-to-end ML pipeline covering data preprocessing, model training, and evaluation to generate insights that support data-driven decision-making.
- Designed the workflow to be reusable across datasets, reducing manual setup for repeat analyses.

Smart Career Recommendation System

December 2025 – January 2026

- Developed an AI chatbot that matches resumes to job descriptions using TF-IDF-based text similarity, achieving 0.80 accuracy.
- Performed text preprocessing and feature extraction for resume-job matching.

Edu Learn E-Learning Platform

October 2025 - December 2025

- Developed a responsive e-learning platform using HTML, CSS, and JavaScript, enabling users to browse courses, enroll, and track learning progress efficiently.
- Implemented interactive UI with course listings, progress tracking, and seamless navigation.

Social Media Application

November 2024 - January 2025

- Developed a Java-based desktop social media application using OOP and DSA, featuring user authentication, profile management, and post interactions.
- Optimized friend connections and post management using efficient data structures.

EXPERIENCE

Sindh Education Organization

June 2024 – August 2024

Programming Mentor

Sindh, Pakistan

- Mentored students in programming fundamentals and problem-solving techniques.
- Guided learners through debugging and coding best practices.

Sukkur IBA University

January 2024 – May 2024

Team Lead- OOP Course

Sukkur, Pakistan

- Led the OOP course team, coordinating study sessions and coding practice for classmates.
- Assisted students with OOP concepts and debugging, improving overall class problem-solving speed

CERTIFICATES & ACHIEVEMENTS

- **Machine Learning Specialization** | Kaggle **January 2026**
- **Google AI Essentials** | Coursera **August 2025**
- **Introduction to Cloud Computing** | IBM **March 2024**

Awards

- **Coding Marathon Winner** - Secured 3rd place.
- **Prime Minister Laptop Scheme Awardee** – 2026

EDUCATION

Sukkur IBA University | BS in Computer Science

August 2023 – June 2027

CGPA:3.8
